GitHub: [sagartiware-net/smportal](https://github.com/sagartiware-net/smportal)

Document date: 20 Sep 2026

Yeh document batata hai ki portal mein kya ho raha hai, kaun-kaun se features hain, kitne type ke users hain, aur har role ke paas kis tarah ki permissions hain.

1. Project kya hai?

SMM Portal (SM Service) ek web-based internship / training management system hai. Isme colleges se interns register hote hain, training groups mein assign hote hain, daily attendance lagti hai, tasks assign / submit / review hote hain, aur Admin–HR–Trainer performance analytics dekh sakte hain.

Tech stack: React + Vite (frontend), Express + Prisma (backend), MySQL (database).

1.1 Main goals

- College-wise intern registration (invite link + Excel upload + Admin/HR approval)
- Training groups banana, trainer assign karna, members add karna
- Daily attendance (Present / Absent / Leave / Week off)
- Task library + group / individual assign + intern submit + staff review
- Score / attendance / task completion analytics with drill-down
- Internship **COMPLETED** vs **HIRED** — alag-alag status

2. User types (5 Roles)

Role	Kaun hai?	Portal path
ADMIN	Full system owner / master admin	/admin/...
HR	HR operations — almost Admin jaisa	/hr/...
TRAINER	Apne groups ke training in-charge	/trainer/...
COLLEGE	College login — apne students	/college/...
INTERN	Student / trainee	/intern/...

3. Permissions matrix

Yes = allowed · Scope = sirf apna data · No = allowed nahi

Feature / Module	Admin	HR	Trainer	College	Intern
Dashboard	Yes	Yes	Yes	Yes	Yes
Users create / manage	Yes	Yes*	No	No	No
Colleges add / edit / delete	Yes	Yes	View≈	Own view	No
Registrations / invites	Yes	Yes	No	Submit≈	No
Approve / reject interns	Yes	Yes	No	No	No
Direct hire intern	Yes	Yes	No	No	No
Groups create / edit	Yes	Yes	Own≈	View≈	Own view
Mark group complete	Yes	Yes	Own≈	No	No
Tasks assign & review	Yes	Yes	Own≈	View≈	Submit own
Task library manage	Yes	Yes	Yes	No	No
Attendance mark	Yes	Yes	Own≈	View≈	Own view
Analytics / reports	Yes	Yes	Own≈	Own≈	Own perf
Intern complete status	Yes	Yes	Yes	No	No
Mark as Hired	Yes	Yes	Yes	No	No
Profile change approve	Yes	Yes	Yes	Request	No
Export Excel	Yes	Yes	Yes	Yes	No

* HR: trainer / intern / college / HR accounts. Admin: Admins bhi manage kar sakta hai.
≈ Trainer / College sirf apne scope (apne groups / apna college) ka data dekh/edit karte hain.

4. Role-wise detail

4.1 ADMIN

- Sab modules: Users, Colleges, Registrations, Groups, Tasks, Attendance, Analytics, Profile changes
- Koi bhi user create / edit / delete (including other Admins)
- College invite links, pending registrations approve/reject, direct-hire
- Group complete / intern complete / hired — full control

4.2 HR

- Admin jaisa operational control (day-to-day running)
- Users, Colleges, Registrations, Groups, Tasks, Attendance, Analytics
- Internship complete + hired actions

4.3 TRAINER

- Sirf apne assigned training groups
- Members add, tasks assign (group ya individual), submissions review
- Apne group ki attendance mark (completed interns list se auto-hide)
- Analytics apne scope mein
- Users / Colleges create / Registrations approve — **nahi**

4.4 COLLEGE

- Apne college ke interns / groups / tasks / attendance / analytics (mostly view)
- Invite link se Excel/list submit → Admin/HR approval wait
- Student profile change request bhej sakta hai (approval chahiye)
- Attendance mark / task assign / group complete — **nahi**

4.5 INTERN

- Apna dashboard, performance, tasks, attendance history, profile
- Assigned tasks submit (max 2 submits per review cycle; Needs improvement ke baad dubara)
- Dusre students / groups manage — **nahi**
- Pending approval accounts login block; Rejected accounts login nahi

5. Feature modules

5.1 Registrations

- Admin/HR college-bound invite link banate hain (one-time use)
- College Excel/template se students submit karta hai
- Pending → Approve / Reject
- Direct hire: Admin/HR seedha intern account bana sakte hain

5.2 Colleges

- College master list (name, code)
- College name click → analytics drill-down (Overview/charts, Students, Groups, Recent work)

5.3 Groups (Training Groups)

- Unique group name, batch label, trainer(s), members
- Multi-group membership supported
- New member join → existing group tasks auto-sync (completed interns skip)
- Mark group complete → saare active members **COMPLETED** (Hired nahi — alag action)

5.4 Tasks

- Library templates + Assign & Library + Manage assignments
- Assign to whole group OR selected individuals (searchable picker)
- Statuses: Assigned → Submitted → Needs improvement / Done
- Intern search suggestions (name, email, group, Active/Completed) — same-name distinguish
- Excel export with filters

5.5 Attendance

- Date + group select → Present / Absent / Leave / Week off
- Completed interns attendance list se hide; unke wajah se pura group lock nahi
- Poora group COMPLETED ho to group-level attendance lock
- Reports: day roster, intern history, exports

5.6 Analytics

- Overview gauges, colleges, groups, leaderboard, attendance trends
- Drill-down: College / Group / Intern / Day
- Lazy tabs — pehle summary/charts, Students/Work on demand (fast load)
- Excel dashboard export

5.7 Profile & Profile changes

- Student tree / profile view by role scope
- College requests profile edits → Admin/HR/Trainer approve/reject
- Completed internship sensitive edits — mainly Admin/HR

6. Important statuses

6.1 Internship status (per intern)

Status	Meaning
ACTIVE	Internship chal rahi hai — attendance + new tasks mil sakte hain
COMPLETED	Internship khatam — us intern ki attendance lock; new group tasks nahi milte

6.2 Hired (alag flag)

Completed ≠ Hired. Complete sirf internship band karta hai. Hired alag button se sirf usi intern par lagta hai. Group complete karne se members Completed hote hain, auto-Hired nahi.

6.3 Task status

Status	Meaning
ASSIGNED	Task diya gaya, submit pending
SUBMITTED	Intern ne submit kiya, review pending
NEEDS_IMPROVEMENT	Reviewer ne improve maanga — submit counter reset
DONE	Task complete / accepted

6.4 Attendance status

PRESENT · ABSENT · LEAVE · WEEK_OFF

6.5 Registration approval

PENDING → APPROVED / REJECTED

7. Typical flows

A) College registration flow

Admin/HR invite → College submit list → Admin/HR approve → Intern login → Group assign → Tasks + Attendance → Complete / optionally Hire

B) Daily ops (Trainer)

Group select → Attendance save (active only) → Assign tasks → Review submissions → Analytics check

C) Complete one non-working intern

Intern drill-down → Mark internship complete → woh attendance/task assign se hat jata hai; baaki group chalata rehta hai. Alag se Mark as hired jab offer ho.

8. Security & data scope

- Login + role-protected routes (frontend) aur requireRole (APIs)

- Trainer dusre trainers ke groups access nahi kar sakta
- College sirf apne college ke students dekhta hai
- Intern sirf apna data dekhta hai
- Completed internship history review ke liye available; marking us intern ke liye lock
- Secrets (.env, LOGIN_CREDENTIALS, SERVER_DEPLOY.local) GitHub pe commit nahi hote

9. Menu checklist

Menu	Admin	HR	Trainer	College	Intern
Dashboard	Yes	Yes	Yes	Yes	Yes
Users	Yes	Yes	No	No	No
Colleges	Yes	Yes	No	No	No
Registrations	Yes	Yes	No	No	No
Groups	Yes	Yes	Yes	Yes	No
Tasks	Yes	Yes	Yes	Yes	Yes
Attendance	Yes	Yes	Yes	Yes	Yes
Analytics	Yes	Yes	Yes	Yes	No
Performance	No	No	No	No	Yes
Profile	Yes	Yes	Yes	Yes	Yes
Profile changes	Yes	Yes	Yes	Yes	No

10. Short summary

SMM Portal colleges, trainers aur HR/Admin ko ek jagah milata hai jahan interns register hote hain, groups mein training chalti hai, attendance aur tasks track hote hain, aur reports/analytics se performance clear dikhti hai.

Admin aur **HR** almost poora system chalaten hain. **Trainer** apne groups par focus karta hai. **College** apne students submit/view karta hai. **Intern** apna kaam submit karta hai aur apni attendance/performance dekhta hai.

Completed aur **Hired** alag hain — kisi ko complete karne se poora group band nahi hota; sirf woh student attendance/new tasks se hat jata hai.
